PROFILE

Passionate about new technologies, I combine technical expertise in IT security (risk analysis, intrusion detection, pentesting), network infrastructure, and development (websites, applications) with 15 years of experience in project management and client relations.

KEY SKILLS

- **Client Relations**: Management of diverse client portfolios (SMEs/large accounts) across various sectors (automotive, aeronautics, services, pharmaceuticals, healthcare, retail). Facilitation of steering committees, training, and user support.
- **Project Management**: Cross-functional coordination, priority management, and collaboration with multiple stakeholders.
- **Audit & Internal Control**: Risk mapping, business continuity (BCP), audit management, report writing, and recommendations.
- **GRC & Compliance**: ISO 27001, EBIOS RM, GDPR, business process audits, user awareness.

EDUCATION

Cybersecurity Analyst – M2i Formation, Lyon   07/2025 - 12/2025

- **Governance & Compliance**: Alignment of technical constraints with business objectives. ISO 27001, EBIOS, GDPR standards.
- **Networks & Systems**: Technical knowledge in network administration (Windows, Linux), VLAN, virtualization (VMware, Hyper-V), routing/switching.
- **Cybersecurity**: Training in vulnerability analysis (Nmap, OpenVAS, Nikto), ethical hacking (Metasploit, Burp Suite), and OS hardening.
- **Automation**: Scripting (Python, PowerShell) for log analysis and security.

Web & Mobile Application Developer – ISIKA, Paris   09/2024 - 06/2025

- **Tools & DevOps**: Understanding of software lifecycles, CI/CD, Git/GitHub (version control), Postman (API testing), Jenkins (continuous integration, deployment automation), JIRA, ServiceNow.
- **Development**: Java, Spring, REST APIs, SQL/NoSQL.

Master 2 in Project Management & Risk Management – Université Paris-Est   2009

- **Complex Project Management**: Agile methodologies (Scrum, V-cycle), strategic planning (Gantt, PERT), meeting facilitation (8D, Klaxoon), and change management (brainstorming, participatory workshops).
- **Specialization**: Project audits, risk management, Agile/Waterfall methodologies.

BTS in Industrial Control and Automation   2006

Vocational Bac in Electrical Engineering   2004

PROFESSIONAL EXPERIENCE

Cybersecurity Analyst – ABSEC, IT Security Consulting, Marrakech (MA)
01/2026 - 05/2026
En-cours

Context: *5-month internship. Participation in the implementation of an operational showcase SOC.*

Key Responsibilities:

- **Governance**: Progress tracking with OpenProject. Contribution to the drafting of the IS Security Policy (PSSI) and associated procedures.
- **Liaison**: Bridge between the commercial and technical teams.
- **Technical**: Participation in the deployment and configuration of SIEM (log correlation) and XDR (extended detection and response) solutions.

Responsable d'Agence - ADECCO, Solutions RH, Annecy (74)
12/2021 – 09/2024

Context: *Management of a branch with 5 direct reports, 100+ temporary workers, and a diverse client portfolio (SMEs, large accounts, industrial and service sectors).*

Key Responsibilities:

- **Client Support**: Advisory services to companies on regulatory challenges. Prospecting and loyalty-building, with a needs-focused approach.
- **Compliance & Processes**: Adherence to internal and legal procedures (GDPR, labor law), contract management, and administrative declarations.
- **Cross-functional Project Management**: Leadership in the adoption of new tools (ERP, CRM) and change management for users.

Site Manager – GSF, Cleaning and Associated Services, Chambéry (73)
01/2017 – 03/2020

Context: *Management of a site with €6M/year turnover and a team of 300 employees. Responsible for quality, safety, and compliance.*

Key Responsibilities:

- **Client Relations**: Ensuring client satisfaction (industry, retail, services, etc.), handling complaints, contract negotiation, and renewals. Recommendation of solutions.

Inspector – GSF, Cleaning and Associated Services, Lyon (69)
06/2012 – 12/2016

Context: *Management of a sector with 80+ employees and a portfolio of 25+ clients. Responsible for risk analysis, report writing, and awareness.*

Key Responsibilities:

- **Audits & Controls**: Conducted 100+ audits/year (pharmaceutical industry, healthcare, services) to assess compliance with standards (safety, security, hygiene, quality) and drafted expert reports.

Security Coordinator – Papeterie Zuber-Rieder, Boussières (25)
09/2007 – 06/2012

Context: *Responsible for the security of assets, personnel, and industrial processes in a demanding environment (heavy industry in the luxury market).*

Key Responsibilities:

- **Security Management System Deployment**: Based on OHSAS 18001, including risk mapping, access control policy, and business continuity plan (BCP). Identification of vulnerabilities and prioritization of preventive actions (30% reduction in incidents).
- **Awareness & Security Culture**: Organization of awareness campaigns and practical exercises for 80+ employees.

INTERESTS

- **Technology Watch**: Cybersecurity (Root-Me, CTF challenges), Generative AI, Blockchain.
- **Languages**: English (C1)
- **Hobbies**: Mantrailing, Cooking, Reading
